

## Single Keystone Switch Plate EU - Polished Nickel

38775

Using our components, you can create any combination of sockets that you need.

This polished nickel plate works with any of our 20mm keystone modules.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass (rather than plastic wrapped in metal) for crisp edges
- Ultra-slim 1.5mm, flush-fit plate
- Screwless face
- Must be installed with our single back box
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
