

Triple 6x Vertical Switch Plate EU - Polished Nickel

39777

Using our components, you can create any combination of switches that you need.

This triple 6x vertical switch plate works with any six of our polished nickel toggle switches. If you'd like to add a rotary dimmer switch, you'll need to use our triple 3x switch plate, which you can fit in a vertical position.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass (rather than plastic wrapped in metal) for crisp edges
- Ultra-slim 1.5mm, flush-fit plate
- Screwless face
- Must be installed with our [triple back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
