

CORSTON

ARCHITECTURAL DETAIL

Single 2x Toggle Switch

Polished Nickel 30812

We've engineered this single 2x toggle switch to be as sleek as possible.

The polished nickel-finished front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

Use a two-way switch where you want to simply turn a circuit on and off. You can have up to two of these on one circuit. To control the circuit from three or more places, add an intermediate switch.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes. Polished nickel doesn't age, and all you need is a lint-free cloth to bring back its shine.

• Made from solid brass

• Streamlined toggle with a satisfying click

• Must be installed with Corston back boxes

- Dimensions: H80mm x W80mm x D23mm. The toggle length is 15mm.
- Switches rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The switch plate sits 1.5mm from the wall
- Secured with a metal ring without visible tool marks
