Belmont Single Hung Window Ring

Antique Brass 12665-CF

Our Belmont window ring is designed for use with timber sash windows.

It's a simple design that offers an easy way to raise and lower the top section of the window.

Antique Brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch it most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

• Made from solid brass

• For use with a sash pole hook

• Sold individually
