2G US New Work Electrical Box

57031

Use our new work electrical boxes when you're installing switches and outlets in an open wall (before the drywall has been installed).

This 2 gang new work box is designed to be secured onto the wall stud.

- Quick and easy to fit
- For open walls that don't already have drywall
- Use with our Grove and Kew switches and outlets. When using with our Kew collection, the box must be recessed into the wall.

Retrofit: **No**

Compatibility: **Grove & Kew collections**
