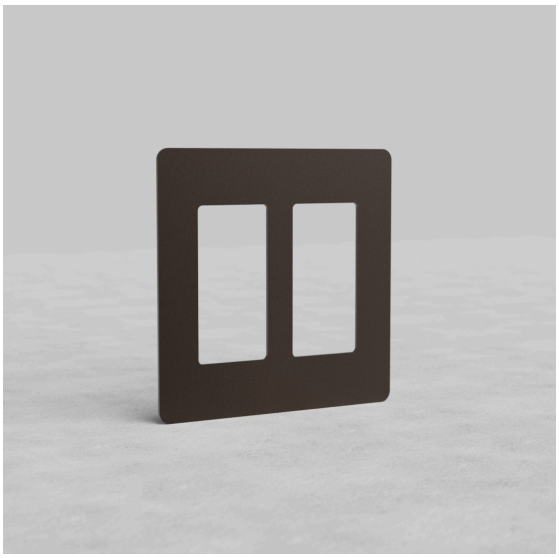
ARCHITECTURAL DETAIL



Kew 2G Outlet Plate

Bronze 57660

The switches and outlets in our Kew collection are installed with new work boxes that need to be recessed into the wall. This makes them perfect for new construction projects.

They're particularly subtle too, thanks to the really slim front plates that sit perfectly flush to the wall.

Using our components, you can create any combination of switches or outlets you need.

This Kew 2 gang outlet plate works with any two of our bronze rocker switches or our outlet modules (just make sure you choose the ones made with black plastic).

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matte brown color that's almost black in some lights.

- Made from solid brass
- Ultra-slim, flush-fit plate
- Screwless design and easy clip-on installation
- Well-suited to new build homes and developments where an electrical box hasn't already been installed (or where a new work box is already recessed into the wall)
- Must be installed with a 2G new work box that's recessed into the wall

Screwless: **Yes**

Electrical box compatibility: **Recessed new work boxes**
