Grove 4G Outlet Plate

Polished Nickel 51036

The switches and outlets in our Grove collection can be installed with existing electrical boxes, so they're ideal for retrofitting.

They offer a refined but bold look that'll make more of a statement on your walls. The front plates are precisely machined for crisp, clean edges and they're screwless (they simply clip in place).

Using our components, you can create any combination of switches or outlets you need.

This Grove 4 gang outlet plate works with any four of our polished nickel rocker switches or our outlet modules.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool color palettes.

- Made from solid brass
- Screwless design and easy clip-on installation
- Ideal for renovation projects where an electrical box is already installed
- Compatible with 4G old work and new work boxes

Screwless: **Yes**

Electrical box compatibility: **New and old work boxes**
