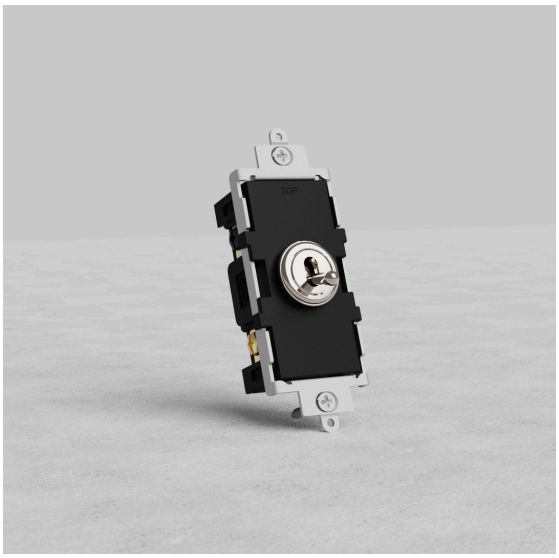
ARCHITECTURAL DETAIL



Four Way Toggle Switch

Polished Nickel 58420

Using our components, you can create any combination of switches you need.

This polished nickel four-way toggle switch works with our Kew and Grove switch plates.

Use it together with three-way switches on a lighting circuit that you control from three or more places.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool color palettes.

- Switch made from solid brass
- Mechanism engineered to give a solid, satisfying click
- Compatible with Kew and Grove switch plates
- Must be used with our polished nickel-finished (or clear or paintable) plates

Input rating: **15A 125V~**

Frequency: **60Hz**

Testing standard: **ETL listed**

Terminal details: **Four terminals**
