Claremont Medium Wall Light Fluted Glass

Antique Brass 50549

The dual design of our Claremont medium wall light provides both up and down light from two fine porcelain shades. The streamlined silhouette looks great in both classic and contemporary homes.

The fluted glass shades have vertical grooves to help diffuse the light.

Antique brass is what's called a "living" finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by aging it by hand, so it has that antique look right out the box.
