

Baylis Single 50mm Spotlight

Polished Nickel 10625

Our Baylis single spotlight has a refined base and discreet screws. It'll sit neatly on any ceiling or wall.

This version's larger, so it'll make more of an impact in bigger spaces.

It's easiest (but not essential) to mount it on a surface with a void behind it, like plasterboard (this is where the small terminal box and cable can be tucked away). If there's no void, the cable's long enough to hide the terminal box further away – you just can't make the connections in the base.

We've designed it with a ball joint that smoothly rotates 320 degrees and tilts 180 degrees, so you can light up specific areas of a room.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Suitable for mounting on ceilings, walls and beams
- Engineered with a ball joint for smooth rotation and tilting
- Use with a 50mm GU10 LED, like our Chester and Arthur bulbs

IP rating: **IP20**

Driver required: **No**

Class: **I**

Bulb fitting: **GU10**

Bulb included: **No**

Recommended bulb: **Arthur 7.5W 50mm LED GU10 24°**
