

## Ealing Ground Spotlight

Antique Brass 14623

Our Ealing ground spotlight is designed to be directed upwards to illuminate trees, garden features or external walls from below.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.
