

CORSTON

ARCHITECTURAL DETAIL

Durham Small Spotlight 35mm

Paintable 17014

Our narrow cylindrical Durham spotlight is easy to angle and rotates a full 360 degrees.

It needs to be mounted on a surface with a void behind it (this is where the electrics will be tucked away).

Plasterboard is best for this.

It's finished in white primer that can be painted to match your ceiling for a seamless look that blends right in.

- Must be mounted on an even, fireproof surface (10mm–20mm thick) with a void behind it
- Internal spring clips secure the base to the surface
- Engineered with a ball joint for smooth rotation and tilting
- Etch primer allows paint to adhere well for a seamless custom finish
- Use with a 35mm GU10 LED, like our Court bulb

IP rating: **IP20**

Driver required: **No**

Class: **I**

Bulb fitting: **GU10**

Bulb included: **No**

Recommended bulb: **Court 3W 35mm LED GU10**
