

Kew Double 1x Keystone & 1x Socket Plate

Clear | White 30472

The switches and sockets in our Kew collection are installed with our bespoke back boxes. This makes them perfect for new construction projects.

They're particularly subtle too, thanks to the really slim front plates that sit perfectly flush to the wall.

Using our components, you can create any combination of switches or sockets that you need.

This Kew clear double 1x keystone and 1x socket plate works with any one of our 20mm keystone modules and any one of our round socket modules (just make sure you choose the ones made with white plastic).

We make our clear collection from polycarbonate, which is more flexible and durable than the usual acrylic.

- Made from transparent polycarbonate
- Works with wallpaper or paint
- Ultra-slim, flush-fit plate
- Well-suited to new build homes and developments where a back box hasn't already been fitted
- Must be installed with our double back box
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation

- Metal die-cast chassis
- Must be installed with our double back box
