

Kew Double 1x Switch & 1x Socket Plate

Polished Nickel 36072

The switches and sockets in our Kew collection are installed with our bespoke back boxes. This makes them perfect for new construction projects.

They're particularly subtle too, thanks to the really slim front plates that sit perfectly flush to the wall.

Using our components, you can create any combination of switches or sockets that you need.

This Kew double 1x switch and 1x socket plate in polished nickel works with any one of our polished nickel toggle or rotary dimmer switches and any one of our round socket modules.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Made from solid brass
- Ultra-slim, flush-fit plate
- Screwless design and easy clip-on installation
- Well-suited to new build homes and developments where a back box hasn't already been fitted
- Must be installed with our double back box
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation

- Metal die-cast chassis
- Must be installed with our double back box
