

Kew Triple 1x Switch & 2x Socket Plate

Clear | Black 39546

The switches and sockets in our Kew collection are installed with our bespoke back boxes. This makes them perfect for new construction projects.

They're particularly subtle too, thanks to the really slim front plates that sit perfectly flush to the wall.

Using our components, you can create any combination of switches or sockets that you need.

This Kew clear triple 1x switch and 2x socket plate works with any one of our toggle or rotary dimmer switches and any two of our round socket modules (just make sure you choose the ones made with black plastic).

We make our clear collection from polycarbonate, which is more flexible and durable than the usual acrylic.

- Made from transparent polycarbonate
- Works with wallpaper or paint
- Ultra-slim, flush-fit plate
- Well-suited to new build homes and developments where a back box hasn't already been fitted
- Must be installed with our triple back box
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation

- Metal die-cast chassis
- Must be installed with our triple back box
