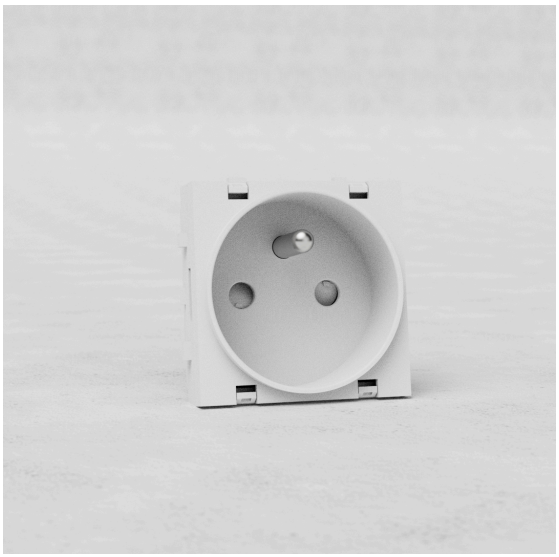
CORSTON
ARCHITECTURAL DETAIL



French/Belgian Type E Socket

White 39860

Using our components, you can create any combination of switches or sockets that you need.

This French/Belgian socket works with our Kew and Grove socket plates.

Use it to power household appliances like lamps, TVs and computers, coffee machines and washing machines.

 • Compatible with Kew and Grove socket plates
 • Made from low-sheen white plastic with a slightly textured finish

- Fits Corston EU round switch plates
- 16A-250V
- Screwless terminals
- Must be used with Corston EU plates and back boxes
