ARCHITECTURAL DETAIL

Harper Fixed Door Handle

Polished Nickel 18253

Simple but bold and well-proportioned, Harper is a modern door handle that also wouldn't be out of place with more traditional architecture.

The 'dummy' handle doesn't operate a mechanism. You can push or pull it, but it won't turn.

There's also no danger of it coming away in your hand – we've engineered the rose and lever to be inseparable.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Made from solid brass
- Low-profile rose with concealed screws
- Ideal for doors that don't need a latching or locking function
- Suitable for use with a roller catch
- Engineered to fit all standard door thicknesses
- When retrofitting, you can use our door handle installation tool for accuracy
- Suitable for interior and exterior doors
- Sold in a pair
