Digby Door Handle Unsprung

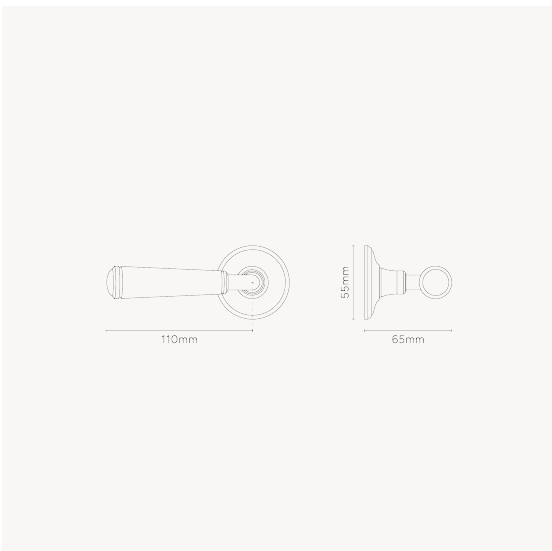

Antique Brass 13620

The detailing on our Digby door handle makes it one of our more traditional styles, but its simplicity will work in modern spaces too.

The handle is unsprung, which means you can use it with an existing sprung latch. We'd always recommend using our unsprung lever handles with strongly sprung latches to stop sagging over time.

There's also no danger of it coming away in your hand – we've engineered the rose and lever to be inseparable.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

CORSTON

ARCHITECTURAL DETAIL

- Made from solid brass
- Low-profile rose with concealed screws
- Super smooth turn thanks to self-lubricating, high-tolerance bushings
- Designed for use with a tubular latch or mortice lock
- Engineered to fit all standard door thicknesses
- When retrofitting, you can use our door handle installation tool for accuracy
- Suitable for interior and exterior doors
- Sold in a pair

Suitability : **Interior doors**

Min. thickness : **35mm**

Max. thickness: **50mm**

Spindle size : **8mm x 8mm**

Hole spacing: **38mm**

Mechanism : **None**
