## Apsley Unsprung Door Handle

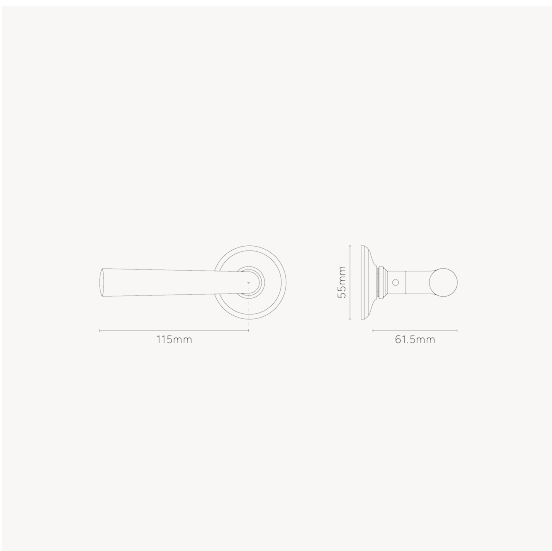

Bronze 12524

The tapered lever handle on our Apsley design is sleek and simple, just like the low-profile, 'screwless' rose (the screws are hidden inside) that we've paired this version with.

The handle is unsprung, which means you can use it with an existing sprung latch. We'd always recommend using our unsprung lever handles with strongly sprung latches to stop sagging over time.

There's also no danger of it coming away in your hand – we've engineered the rose and lever to be inseparable.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.
