Poplar Short Plate Fixed Door Knob

Antique Brass 12514

Our Poplar design is our take on the classic Victorian beehive knob.

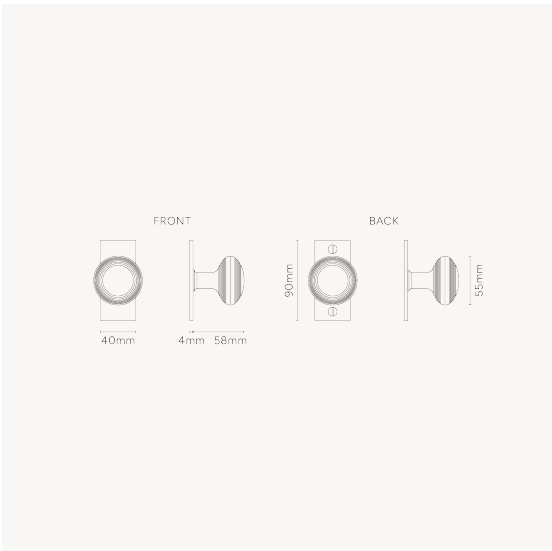

We've streamlined things, giving it a flatter knob and, in this case, a low-profile, short backplate. It'll work well in period properties with a contemporary edge, or by bringing a traditional touch to new builds.

The 'dummy' knob doesn't operate a mechanism. You can push or pull it, but it won't turn.

There's also no danger of it coming away in your hand – we've engineered the backplate and knob to be inseparable.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

CORSTON

ARCHITECTURAL DETAIL

- Made from solid brass
- 4mm backplate with screwless 'front' side
- Longer handle neck for a comfortable grip
- Ideal for doors that don't need a latching or locking function
 - Suitable for use with a roller catch
- Engineered to fit all standard door thicknesses
 - Suitable for interior and exterior doors
 - Sold in a pair

Suitability : **Interior doors**

Min. thickness : **35mm**

Max. thickness: **50mm**

Spindle size : **8mm x 8mm**

Mechanism : **Fixed**
