## Onslow Short Plate Unsprung Door Knob

Antique Brass 17116

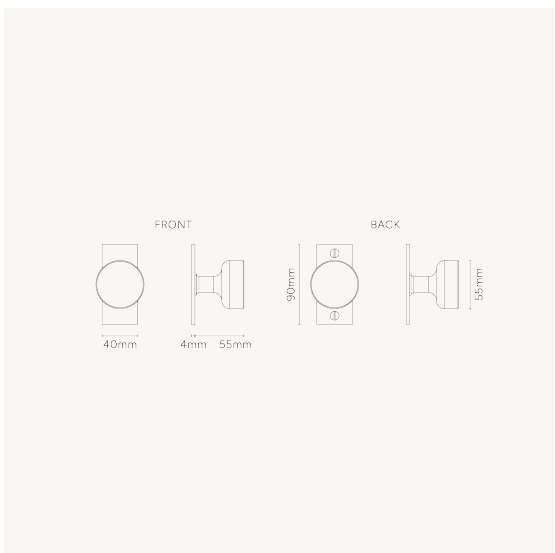

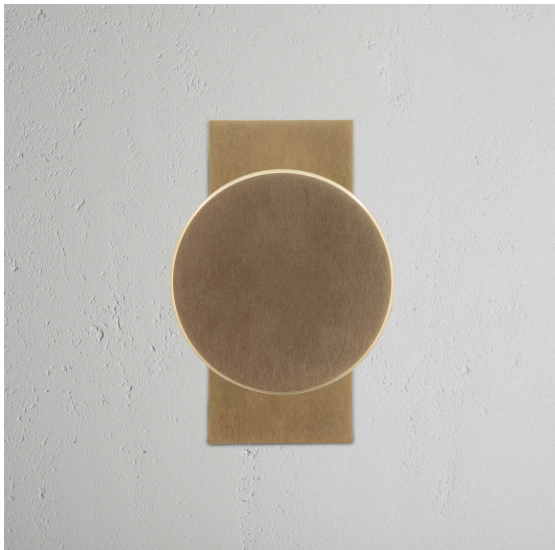

Our flat-fronted Onslow door knob is a contemporary alternative to our beehive design.

This version includes a low-profile, short backplate for a slightly bolder look.

The knob is unsprung, which means you can use it with an existing sprung latch. To make sure it stays easy to turn, we'd recommend using a lightly sprung latch.

There's also no danger of it coming away in your hand – we've engineered the backplate and knob to be inseparable.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.
