ARCHITECTURAL DETAIL

## Digby Short Plate Fixed Door Handle

Bronze 12401

The detailing on our Digby door handle makes it one of our more traditional styles, but its simplicity will work in modern spaces too.

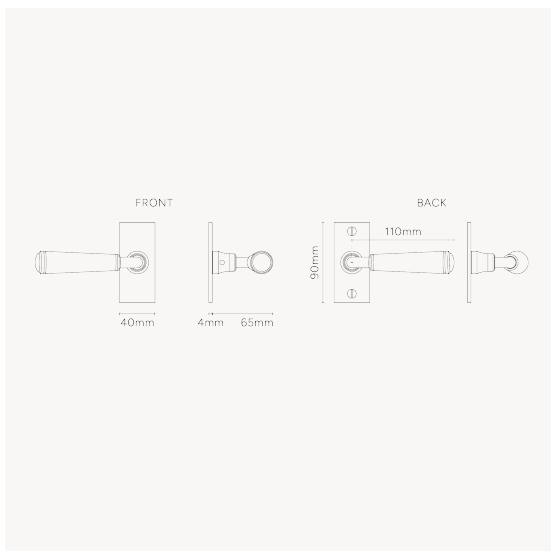

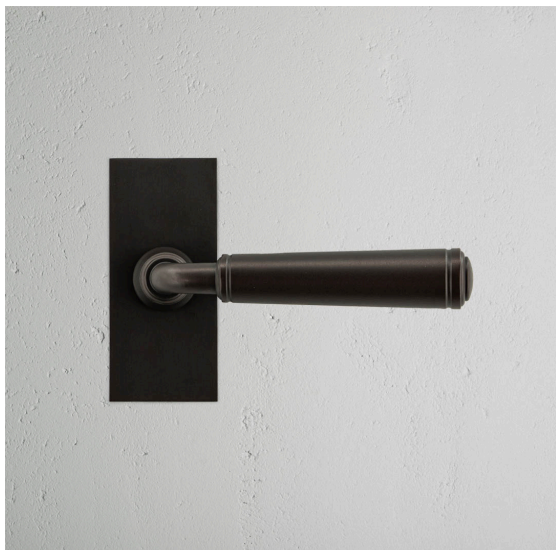

This version includes a low-profile, short backplate for a slightly bolder look.

The 'dummy' handle doesn't operate a mechanism. You can push or pull it, but it won't turn.

There's also no danger of it coming away in your hand – we've engineered the backplate and lever to be inseparable.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Made from solid brass
- 4mm backplate with screwless 'front' side
- Ideal for doors that don't need a latching or locking function
- Suitable for use with a roller catch
- Engineered to fit all standard door thicknesses
- Suitable for interior and exterior doors
- Sold in a pair
