ARCHITECTURAL DETAIL

## Digby Short Plate Fixed Door Handle

Polished Nickel 18104

The detailing on our Digby door handle makes it one of our more traditional styles, but its simplicity will work in modern spaces too.

This version includes a low-profile, short backplate for a slightly bolder look.

The 'dummy' handle doesn't operate a mechanism. You can push or pull it, but it won't turn.

There's also no danger of it coming away in your hand – we've engineered the backplate and lever to be inseparable.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Made from solid brass
- 4mm backplate with screwless 'front' side
- Ideal for doors that don't need a latching or locking function
- Suitable for use with a roller catch
- Engineered to fit all standard door thicknesses
- Suitable for interior and exterior doors
- Sold in a pair
