

Clayton Short Plate Fixed Door Handle

Antique Brass 12458

Clayton is probably our most modern door handle thanks to its sleek, flat-surfaced lever (the front-facing surface still has a subtle curve to it for a really pleasing overall feel).

This version includes a low-profile, short backplate for a slightly bolder look.

The 'dummy' handle doesn't operate a mechanism. You can push or pull it, but it won't turn.

There's also no danger of it coming away in your hand – we've engineered the backplate and lever to be inseparable.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.
