Clayton Fixed Door Handle With Flush Rose

Polished Nickel 12737

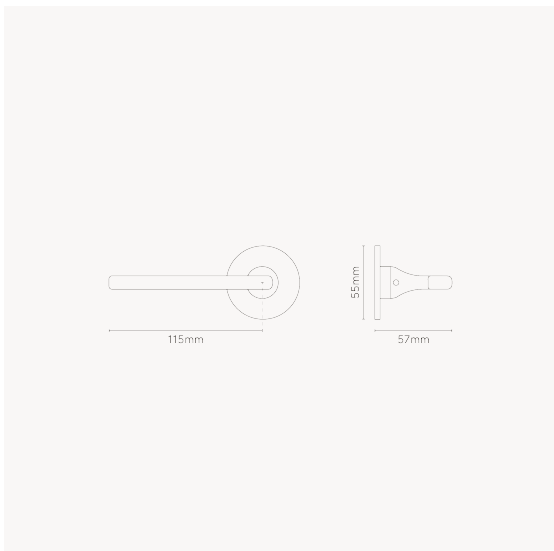

Clayton is probably our most modern door handle thanks to its sleek, flat-surfaced lever (the front-facing surface still has a subtle curve to it for a really pleasing overall feel).

This version includes a pared-back flush rose that we've designed specially to complement Clayton's contemporary look.

The 'dummy' handle doesn't operate a mechanism. You can push or pull it, but it won't turn.

There's also no danger of it coming away in your hand – we've engineered the backplate and lever to be inseparable.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

CORSTON

ARCHITECTURAL DETAIL
